I. You are allowed to take only two things (inanimate objects) to a desert island (for leisure, not for survival). What will they be? Make your logical and sensible choices with explanations in no more than 100 words. (30%)

II. Everyone wants to be different; everyone wants to be special. However, most people seem to idle their time away in similar ways: phubbing at lecture or cutting classes. How are you different? What are the daily efforts you make? What is the long-term goal you set? What is the habit you'd like to form in order to be different, special, and successful? Elaborate on your practice and experience in 250—300 words. (70%)
