一、針對大眾傳播媒體強化性別刻板印象，甚或物化及性化女性等議題，女性主義者有相當多元的看法。試依據不同女性主義理論或流派的觀點，進行分析並提出你個人的看法（40%）。

二、試將下段英文短文翻譯成中文（20%）。

The gendered structure of work in modern societies is familiar and easy to understand – men do paid work and women do housework. So are the assumed reasons – women bear children and take care of them, so they should take care of men's physical and emotional needs as well. Men, because they don't bear children, are responsible for working at a job or running a business to provide the financial support for their wife and children. This neat picture assumes a heterosexual, nuclear family household and high enough wages or profits on the part of the male earner to support the whole family. This "ideal" family is achieved by very few people. Family structures and household composition are diverse, and women as well as men (and many children, too) do both paid work and unpaid domestic work. Women do most of the unpaid work whether or not they have children, and child care is only one part of women's work for their families.

三、試申論下列兩項議題（40%）

1. 你認為前題（第二題）之觀點，跟目前警政機關對性別不設限，開放招考女警的疑慮有無關連？為什麼有（或無）關連？（10%）
2. 目前國內女性主義論述多不認同前述警政機關的疑慮，你認為應該如何說服警政機關？（即，試提出你對警政機關的說法/說帖）（30%）。
