A good teacher is many things to many people. I suppose everyone has his definite ideas about what a good teacher is. As I look back on my own experience, I find the teachers that I respect and think about the most are those who demanded the most 29 from their student.

I 30 one teacher in particular that I had in high school. I think he was a good teacher because he was a very strict person. He just can not 31 any kind of nonsense at all in his class. I remember very vividly a sign over his classroom door. It was a simple sign that 32, "laboratory – in this room the first five letters of the word are emphasized, not the last seven." In other 33, labor for him was more important than 34.

Computer viruses cause real pain. Maybe it is the computers that get the viruses, but it is the human that are hurt. Computers feel nothing when they have viruses. Computers \_\_\_35\_\_\_ make their own decisions; they are always only doing \_\_\_36\_\_\_ people tell them to do. However, to \_\_\_37\_\_\_, viruses mean hours of wasted time and lost work. Moreover, keeping computers safe from viruses is \_\_\_38\_\_\_ for the humans, not for the computers. We must study all the different virus guards because there are so many. This means we waste time when computers do have viruses, and when they do not have viruses, we \_\_\_39\_\_\_ waste time. As has been suggested, the computers might sometimes get sick, but it is always the humans that feel the \_\_\_40\_\_\_.
